Orbit

PLATFORM OVERVIEW

Every Safety Process. One Platform.

Orbit centralizes pharmacovigilance oversight, modeling every safety process as a configurable Tracker, automating the workflows and deadlines behind it, and keeping your global markets in step. From simple data capture through complex workflows and access rights, one platform carries the process end to end.

- **Inspection-ready audit trail**
- **Validated GxP environment**
- **Configurable, no-code Trackers**

A STRATEGIC PLATFORM

Change the way you manage safety workflows

From simple data capture through complex workflows and access rights, Orbit transforms how your company approaches workflow management in one configurable, audit-ready source of truth.

Real-time oversight

Orbit streamlines oversight by centralizing PV processes, workflows, data and global connections.

Improved efficiency

Quickly access responsibilities across markets, products and partnerships, and cut manual work with automation.

Global consistency

Share strategies and tools across every local market while monitoring implementation variations.

Inspection-readiness

Orbit captures regulator feedback and follow-up actions, maintaining a compliant, audit-ready change log.

HOW ORBIT WORKS

01

Model the process

Configure a Tracker with your lifecycle, data and stakeholders. No code required.

02

Automate the schedule

Due dates, reminders and notifications fire on their own. Set it and forget it.

03

Track and escalate

Watch every Tracked Item move through status, with activities and timelines.

04

Prove it

Produce the audit trail, evidence and documentation an inspection asks for.

Cross-functional solutions

- Risk Management Plans
- Signal Management
- Safety Commitments
- aRMM Commitments
- SDEA & PV Agreements
- Health Authority Requests
- Aggregate Safety Reporting
- Safety Document Exchange
- PSMF & Annex Distribution

About Feith System & Software For over 40 years, Feith has delivered intuitive, versatile, next-generation solutions to highly regulated industries. That experience is the foundation Orbit is built on.
