

ORBIT BY FEITH

Inspection ready tracking at its finest.

Learn why 4 of the top 10 global pharma companies trust Orbit with their complex Safety and Regulatory processes.

**orbit**TM
by Feith Systems

A strategic platform

Real-time oversight

Orbit streamlines oversight by centralizing PV processes, managing workflows, data and global connections.

Improved efficiency

Quickly access responsibilities across markets, products and partnerships. Reduce manual work with automation.

Global consistency

Share strategies and tools across all of your local markets while monitoring any implementation variations.

Inspection-readiness

Orbit captures feedback and follow-up actions from regulators and maintains a compliant change log.

Cross-functional solutions

- RMP Commitments & Additional Risk Minimization Measures
- Aggregate Safety Reporting
- Safety Signal Management
- SDEA & PV Agreements
- Document Exchange
- Safety Commitments
- Health Authority Requests
- Close Monitoring Events
- PV MailiQ

About Orbit & Feith

From simple data capture through complex workflows and access rights, Orbit promises to change the way your company approaches workflow management.

For over 40 years, Feith has been committed to providing the most intuitive, versatile, user-friendly next generation solutions to highly regulated industries.
